Offering for World Renew: Eastern Africa Hunger Response

Famine, precipitated by a combination of drought, conflicts, marginalization and weak governance, has been declared by the United Nations in South Sudan, while Somalia, Nigeria, and Yemen are on the brink of famine. Across these four countries, 20 million people face starvation and millions more across the world are experiencing alarming levels of hunger. Malnutrition is having a disastrous impact and, as ever, children are among the worst affected. In fact, 1.4 million children could die of severe acute malnutrition in the coming months. Additionally, 27 million people lack access to safe water in the four countries at risk of famine, increasing the threat of cholera and other water-borne diseases. World Renew is seeking to make a difference during this unprecedented period of suffering.
